

Servers - Privacy - Compliance

	Zextras Carbonio	Zimbra Network Edition
On-premises Deployment	yes	yes
Cloud Deployment	yes	yes
Hybrid Deployment	yes	yes
Out-of-the-box compliance with privacy regulations (GDPR, LGPD, CCPA, etc.)	yes	yes
White label and Branding for ISPs and enterprises	yes	yes
GDPR compliance (as an example)	Full compliance	Full compliance

Authentication - Security

	Zextras Carbonio	Zimbra Network Edition
2FA for Web Client and Mobile Apps	yes	only web client
2FA QR Code Support	yes	no
SAML/Single Sign-On (IdP/SP-initiated Single Sign-On)	yes	yes
Domain Level Authentication for SAML	yes	no
Support for multiple IdPs on the same infrastructure	yes	no
Multiple dedicated passwords for mobile devices	yes	yes
ABQ device control / Address Book Service for external clients such as Outlook / Mobile Device Management (MDM)	yes	yes
Remote wipe for mobile devices	yes	yes

Antispam/Anti-malware - Threat Protection

	Zextras Carbonio	Zimbra Network Edition
Embedded Anti-malware	yes	yes
Embedded Antispam	yes	yes
Greylisting	yes	yes
SPF	yes	yes
DKIM	yes	yes
DMARC	yes	yes

Supported Operating Systems for Servers

	Zextras Carbonio	Zimbra Network Edition
Ubuntu®	yes	yes
Red Hat® Enterprise Linux®	yes	yes
CentOS Linux®	yes	yes

Supported Operating Systems for Servers

	Zextras Carbonio	Zimbra Network Edition
Oracle Linux®	yes	yes

Supported Virtualization Platforms

	Zextras Carbonio	Zimbra Network Edition
VMware vSphere	yes	yes
XenServer	yes	yes
KVM	yes	yes
Microsoft Hyper-V	yes	no

Supported Browsers for Web Client

	Zextras Carbonio	Zimbra Network Edition
Chrome	yes	yes
Firefox	yes	yes
Safari	yes	yes
Microsoft Edge	yes	yes

Mobile Apps Availability

	Zextras Carbonio	Zimbra Network Edition
E-mail and Calendar	iOS / Android	Yes
Corporate Instant Messaging, Group Calls, Video Conferencing	iOS / Android	no
File Management	iOS / Android	no

Mobile App Features

	Zextras Carbonio	Zimbra Network Edition
Support for Multi Identity	yes	no
2 Factor Authentication	yes	no
QR Support for 2FA	yes	no
Support for Active Sync	yes	yes
Outlook Support (e-mail / contacts / calendar)	yes	yes

Webmail - Contact - Calendar Features

	Zextras Carbonio	Zimbra Network Edition
E-mail management: Scheduled sending / Reply on behalf of / Attachment preview / Drag and drop capabilities / Tags / Folders / Share permissions / Message filtering	yes	yes

Shared Items / Accounts / Folders	yes	yes
Contact manager	yes	yes
Multiple address books	yes	yes
Shared address book	yes	yes
Address autocomplete	yes	yes
Calendering: Multiple calendars / Share management / Share permissions / Preview participants' timetable and available rooms / Smart suggestion for free time and locations / Color coding / Tagging / Drag and drop capabilities / Recurring events	yes	yes
Search capabilities: Search within e-mail bodies, contacts, events, attachments, and documents / Attachment indexing / Full-text search	yes	yes

Collaboration and Communication Features

	Zextras Carbonio	Zimbra Network Edition
File storage: Browse/upload/download/metadata search, etc./File versioning	yes	yes
Real-time collaborative editing	yes	yes
Support for multiple servers/Multi-node architecture/ Scalability/Load balancing/	yes	yes
Sharing capabilities: Internal share/Public links for external share/access control	yes	yes
Text Messaging: 1:1 and Group / Delegating moderators	yes	yes
Video meetings 1:1 and Group	yes	yes
Screen sharing	yes	yes
Delegating Group Moderators	yes	no
Multiple Moderators	yes	no
Support for external users	yes	no
Private meeting Rooms	yes	no
Scheduled meetings with Custom and Prepared Rooms	yes	no
Shareable Joining Link	yes	no
Waiting Rooms	yes	no

Storage Management

	Zextras Carbonio	Zimbra Network Edition
Integration for third-party cloud storage services	yes	yes
Object storage Support	yes	yes
AWS S3 / S3-compatible	yes	yes
Support for Scality	yes	no
Hierarchical storage management	yes	yes
Automatic item deduplication	yes	yes
Automatic file compression	yes	yes
Volume management tools	yes	yes
Server migration tools	yes	yes
Indexing	yes	yes
Move a mailbox database / database portability	yes	yes

Administrative Profiles - Delegation - Multi-Tenancy

	Zextras Carbonio	Zimbra Network Edition
Administrative Tools / Domain settings / Quota management	yes	yes
Multi-tenancy	yes	yes
Delegated administration	yes	yes
Granular administrative rights and permissions	yes	yes
User management through class-of-service	yes	yes

High Availability

	Zextras Carbonio	Zimbra Network Edition
Heartbeat monitoring system / Replication / Redundancy / Failover clustering	yes	no
Multiple Replication with Account-based Granular Control Per User (different users with different number of replicas)	yes	no
Active Replica (Zextras proprietary technology)	yes	no
Handling Different SLAs in the same Multi-tenant Environment	yes	no

Disaster Recovery and Backup Features

	Zextras Carbonio	Zimbra Network Edition
Disaster recovery	yes	yes
Single item recovery	yes	yes
Point-in-time snapshot-based restore	yes	yes
Real-time backup / Live database scan in the background	yes	yes
Self Coherent Backup (can be used on a nother node)	yes	yes
Restore Local Account	yes	yes

Disaster Recovery and Backup Features

	Zextras Carbonio	Zimbra Network Edition
Backup on External Storage / offsite	yes	yes
Object/Blob Storage Support for Backup	yes	yes
Automatic Coherency Check	yes	yes
Fast multi-threading	yes	yes
Infrastructure and version-agnostic restoring/recovery	yes	yes
